

Dear ,

Gloucestershire Constabulary Freedom of Information request 2023.0613

On 09/06/2023 you sent an email constituting a request under the Freedom of Information Act asking the following:

I would like to request, under the Freedom of Information Act 2000, data on the number of hate crimes or alleged hate crimes against an individual's gender identity reported to your Force in the years 2021 to 2023.

The Office for National Statistics records these reports on a yearly basis, nationally, however I would like these results by month.

If possible, I would like the data to be broken down by the number of reports each month between March 2021 and March 2023 as rows, as well as a column for each possible outcome (investigation ongoing, case closed no conviction or case closed conviction, etc) which contains the breakdown for this number as well as a final total, showing the full number of reports for each month.

I would preferably like this information as an excel file

Under the Freedom of Information Act 2000 s1, I can confirm that Gloucestershire Constabulary holds some relevant information.

Police Forces in the United Kingdom are routinely required to provide statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the data. It should be noted that for these reasons the figures given relate to information from the specific recording system of Gloucestershire Constabulary and should not be used for comparison purposes with any other response you receive.

Please note that our systems are designed to record information for policing purposes and the investigation of crime and not to extract statistical information. Accordingly whilst we endeavour to extract relevant data within the time limits of the Act, any data supplied is subject to these limitations.

I can confirm that a search has been conducted for crimes recorded from 01/03/2021 to 31/03/2023 whereby the crime was recorded under the transgender identity hate strand.

The results broken down by month and the total number of police outcomes relating to the crimes are detailed in the attached spreadsheet.

Any further correlation of statistics is exempt under section 40 of the Freedom of Information Act.

Section 17 of the Freedom of Information Act 2000 requires Gloucestershire Constabulary, when refusing to provide information (because the information is exempt) to provide you the applicant with a notice which: (a) states the fact, (b) specifies the exemption in question and (c) states (if not otherwise apparent) why the exemption applies.

With regard to any further correlation of statistics, the following exemption applies:

Section 40(2) Personal Information

Section 40(2) applies to third party personal data. This would not be released under the Freedom of Information Act unless there is a strong public interest. The disclosure of any information which could lead to the identification of an individual would breach the Data Protection Principles contained within the Data Protection Act 2018, namely the first principle which states that personal data shall be processed lawfully, fairly and in a transparent manner in relation to individuals

This exemption is absolute and class based therefore I am not required to apply either the public interest test or harm test in disclosure.

In accordance with the Act, this letter represents a Refusal Notice for this part of your request.

If you are not satisfied with this response or any actions taken in dealing with your request, you have the right to ask that we review your case under our internal procedure. Please note that a request for an internal review must be made within 20 working days of the response to your original request.

If you decide to request that such a review is undertaken and following this process you are still unsatisfied, you then have the right to direct your complaint to the Information Commissioner for consideration.

Yours sincerely,

Disclosure Officer
Gloucestershire Constabulary
