Dear

Gloucestershire Constabulary Freedom of Information request 2023.0713

On 11/07/2023 you sent an email constituting a request under the Freedom of Information Act asking the following:

Please see below a new Freedom Of Information Request for the following total figures & breakdowns, looking at car, van, and motorcycle thefts between May 2022 – May 2023:

The number of cars/vans/motorcycles stolen in total The brand of cars/vans/motorcycles (e.g. Range Rover, Ford, Mercedes) The colour of cars/vans/motorcycles (e.g. Red, blue, white, silver) Locations stolen from (town name only) Valuations of the cars/vans/motorcycles at the time Year of cars/vans/motorcycles registration (e.g. 2020)

Under the Freedom of Information Act 2000 s1, I can confirm that Gloucestershire Constabulary holds some relevant information.

Police Forces in the United Kingdom are routinely required to provide statistics to government bodies and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the data. It should be noted that for these reasons the figures given relate to information from the specific recording system of Gloucestershire Constabulary and should not be used for comparison purposes with any other response you receive.

Please note that our systems are designed to record information for policing purposes and the investigation of crime and not to extract statistical information. Accordingly whilst we endeavour to extract relevant data within the time limits of the Act, any data supplied is subject to these limitations.

You requested that the data was supplied in an Excel spreadsheet format, therefore please see the attached document, however, please see the explanation below of the data provided.

A search of Gloucestershire Constabulary's Crime Recording System was carried out to identify the number of substantiated crimes recorded between 01/05/2022 and 30/04/2023 where the offence of "Theft of a motor vehicle" or "Unauthorised taking of a motor vehicle (does not include 'being carried knowing motor vehicle has been taken)" has been recorded. I can confirm a total of 402 records have been identified, and of those, 66 have been recovered.

We have then extracted the following details:

- local policing area (for location)
- type of vehicle
- make and model – where recorded
- colour – where recorded
- Value – where recorded

Please note that the year of registration is not recorded. The only way to determine that information would be to research the individual vehicle registration numbers recorded.

If you are not satisfied with this response or any actions taken in dealing with your request, you have the right to ask that we review your case under our internal procedure. Please note that a request for an internal review must be made within 20 working days of the response to your original request.

If you decide to request that such a review is undertaken and following this process you are still unsatisfied, you then have the right to direct your complaint to the Information Commissioner for consideration.

The Information Commissioner can be contacted via the following means:

Website - <https://ico.org.uk/>

Call their helpline - 0303 123 1113

Email - casework@ico.org.uk
