Dear

Gloucestershire Constabulary Freedom of Information request FOI_24_0452

On 22/04/2024 you sent a letter constituting a request under the Freedom of Information Act asking the following:

I have been advised that when a Police Speed Camera (manned, automated or unmanned) is put in place, that there should be an assessment made of the area, the signs associated with the area, any restrictions governing the area, and a record made of the area, prior to any camera being setup.

I therefore request under the Freedom of Information Act 2000 a copy of this assessment, in particular the section eastbound between the junctions of Cole Avenue and the 60 mile per hour speed gateway signs, further along the A38 Quedgeley By Pass. We would wish to see the assessments record to the signage for the area.
I await your response to this matter.

Under the Freedom of Information Act 2000 s1, I can confirm that Gloucestershire Constabulary holds some relevant information.

Please see the below, in response to your request.

If you are not satisfied with this response or any actions taken in dealing with your request, you have the right to ask that we review your case under our internal procedure. Please note that a request for an internal review must be made within 20 working days of the response to your original request.

If you decide to request that such a review is undertaken and following this process you are still unsatisfied, you then have the right to direct your complaint to the Information

Commissioner for consideration.

The Information Commissioner can be contacted via the following means:
