Dear

Gloucestershire Constabulary Freedom of Information request FOI_25_1136

On 24/11/2025 you sent an email constituting a request under the Freedom of Information Act asking the following:

I am requesting a freedom of information report about the number of accidents or near misses in the Tutshill area in the last 3 years.

And also any correspondence expressing concerns that the road layouts and speed limits are likely to lead to an accident in the near future.

There is concern in the village about the lack of speed calming measures but I understand the council are not acting on these concerns because of a lack of KSI type incidents.

I also understand that the council may not be fully aware of the near misses that are likely to be predecessors of a more significant accident.

Under the Freedom of Information Act 2000 s1, I can confirm that Gloucestershire Constabulary holds no relevant information.

Gloucestershire Constabulary do not routinely record near misses, therefore there is no relevant information stored for the requested queries. It may be more convenient to request RTC data on key roads within the target area which may yield information.

If you are not satisfied with this response or any actions taken in dealing with your request, you have the right to ask that we review your case under our internal procedure. Please note that a request for an internal review must be made within 20 working days of the response to your original request.

If you decide to request that such a review is undertaken and following this process you are still unsatisfied, you then have the right to direct your complaint to the Information

Commissioner for consideration.

The Information Commissioner can be contacted via the following means:
