Dear

Gloucestershire Constabulary Freedom of Information request FOI_26_0356

On 08/04/2026 you sent an email constituting a request under the Freedom of Information Act asking the following:

I would like to request the most recent available data, ideally for the 2024 calendar year (or the latest year held), relating to speed enforcement cameras within your police force area. Specifically, please provide:

- 1) The total number of fixed speed cameras within your police force area
- 2) The total number of average speed (SPECS or similar) camera systems within your police force area.
- 3) In addition, if available, please provide a breakdown of these figures for the local government district of Cotswold.

Please provide these as total counts.

For clarity:

Fixed speed cameras refer to permanently installed cameras at specific locations. Average speed cameras refer to systems that calculate speed over a distance. Mobile or temporary enforcement units/vans are not required as part of this request. Where only current totals are held rather than year-specific data, please provide the most recent figures available.

If exact figures are not held in this format, I would be grateful if you could provide the closest available equivalent data or reasonable estimates based on existing records. If your force does not hold this information, but it is held by a local Road Safety Partnership or another organisation, I would appreciate it if you could advise or redirect this request where appropriate.

Under the Freedom of Information Act 2000 s1, I can confirm that Gloucestershire Constabulary holds some relevant information.

Following receipt of your request we have consulted within the constabulary, one of our designated specialists has provided you with the data below. (The data available relates to both years 2024 and the latest year

Q1) 0
Q2) 6
Q3) One SPECS
