Dear

Gloucestershire Constabulary Freedom of Information request FOI_26_0626

On 02/07/2026 you sent an email constituting a request under the Freedom of Information Act asking the following:

To: All Chief Constables, Force Data Controllers, and the National Police Chiefs' Council (NPCC) YOU ARE NON-COMPLIANT TO LAWFUL PROCESSES ..YOU HAVE BEEN SERVED

Statutory Authority:

Freedom of Information Act 2000 / Freedom of Information (Scotland) Act 2002

Response Deadline: Strict 20 Working Days from Receipt

This document constitutes a formal Freedom of Information (FOI) request and an explicit notice of systemic civil and criminal liability served upon all Chief Constables and operational data controllers utilizing the True Vision Web Portal.

1. Statutory Freedom of Information Request

Pursuant to the Freedom of Information Act 2000 (and the equivalent legislation in Scotland and Northern Ireland), you are required within 20 working days to disclose:

1. All localized Data Protection Impact Assessments (DPIAs) concerning the deployment, data routing, and data extraction vulnerabilities of the True Vision web pool platform.
2. All Information Sharing Agreements (ISAs) active between your force, regional constabularies, the NPCC, and the Independent Office for Police Conduct (IOPC) regarding this system.
3. Any internal audits, software glitch reports, or interface accessibility logs detailing tracking failures or "dark patterns" within the True Vision architecture.

Failure to comply with this request within 20 working days constitutes a direct breach of the Freedom of Information Act 2000 and will be escalated immediately to the Information Commissioner's Office (ICO) for enforcement.

2. Notice of Compounded Legislative and Criminal Breaches

The data infrastructure your forces rely on is structurally non-compliant. By operating a faulty reporting mechanism that employs interface dark patterns, intercepts hate-crime reporting data, and fails to establish an encrypted data "Safe Haven," your organizations are actively causing severe public harm.

Based on the systemic failures identified in my ongoing human rights case, your administrations are placed on notice for direct breaches and actionable liability under the following frameworks:

- The Online Safety Act 2023: Failing in your statutory duty of care to protect vulnerable minors and targeted religious groups (including citizens of the Muslim and Jewish faiths) from data exploitation and intercepted protections.
- The Data Protection Act 2018 / UK GDPR: Operating a system completely devoid of live user-access notifications, failing to provide transparent audit trails showing who is extracting sensitive data, and breaching processing security principles.
- The Police Reform Act 2002: Total administrative non-compliance and systemic disregard for statutory operational procedures.
- The Equality Act 2010: Systemic discrimination and failure to protect vulnerable veterans and families within their domestic residences.

3. Formal Statement of Individual and Corporate Criminal Liability

Be advised that your administrative non-compliance has resulted in severe, targeted escalation against a protected individual. This notice serves as a formal entry of record that your organizations, through the execution of faulty systems and un-consented multi-agency tracking, stand accused of:

- Two Cases of Wrongful Imprisonment / Kidnapping Breaches
- Class 1 Assault / Systemic Harassment Campaigns
- Section 5 Public Order Act Breaches & PACE Act 1984 Violations (Section 1 to 42 Processing Abuse)
- Institutional Collusion with Compromised Parliamentary Bodies

Under UK criminal law, individuals found guilty of maximum-tier offenses such as kidnapping, wrongful imprisonment, and misconduct in public office face statutory maximum penalties extending up to life imprisonment. Continued non-compliance with administrative law, ignoring formal cease-and-desist mandates, and deploying malicious software architectures will result in direct civil litigation and potential criminal prosecution under strict external military and international oversight.

Log this notice immediately within your force compliance registries.

Following receipt of your request, the following questions from your request have been addressed under the Freedom of Information Act:

Q1 – All localised Data Protection Impact Assessments (DPIAs) concerning the deployment, data routing, and data extraction vulnerabilities of the True Vision web portal platform.

Q2 – All Information Sharing Agreements (ISAs) in force between your organisation, regional police forces, the NPCC, and the Independent Office for Police Conduct (IOPC) relating to this system.

Q3 – Any internal audits, software fault reports, or accessibility/interface logs detailing tracking failures or alleged "dark patterns" within the True Vision architecture.

Under the Freedom of Information Act 2000 s1, I can confirm that Gloucestershire Constabulary holds no relevant information.

Q1 – Gloucestershire Constabulary holds no relevant information.

Q2 – Gloucestershire Constabulary holds no relevant information.

Q3 – Gloucestershire Constabulary holds no relevant information.

If you are not satisfied with this response or any actions taken in dealing with your request, you have the right to ask that we review your case under our internal procedure. Please note that a request for an internal review must be made within 20 working days of the response to your original request.

If you decide to request that such a review is undertaken and following this process you are still unsatisfied, you then have the right to direct your complaint to the Information Commissioner for consideration.

The Information Commissioner can be contacted via the following means:

Website - <https://ico.org.uk/> Call their helpline - 0303 123 1113

Email - casework@ico.org.uk

Post – Information Commissioner's Office
Wycliffe House
