Dear

Gloucestershire Constabulary Freedom of Information request FOI_26_0745

On 05/08/2026 you sent an email constituting a request under the Freedom of Information Act asking the following:

I would like to request the following information under the freedom of information Act 2000:

1. How many reports of voyeurism (Home Office Code 88E) have you received from January 1st, 2020, to June 30th, 2026?
2. Please can you provide a breakdown of the gender of the victim for each of these reports of voyeurism between January 1st, 2020, to June 30th, 2026?
3. Please can you provide the outcome for each of these reports of voyeurism between January 1st, 2020, to June 30th, 2026?
4. Please can the information be presented in a spreadsheet with the data broken down year by year?

Under the Freedom of Information Act 2000 s1, I can confirm that Gloucestershire Constabulary holds some relevant information.

Following receipt of your request, a search was conducted of the Constabulary's crime recording database for substantiated crimes recorded from 01/01/2020 to 30/06/2026 under the following offence of 88E Exposure and Voyeurism.

Police Forces in the United Kingdom are routinely required to provide statistics to government bodies, and the recording criteria is set nationally. However, the systems used for recording these figures are not generic, nor are the procedures used locally in capturing the data. It should be noted that for these reasons the figures given relate to information from the specific recording system of Gloucestershire Constabulary and should not be used for comparison purposes with any other response you receive.

Please note that our systems are designed to record information for policing purposes and the investigation of crime and not to extract statistical information. Accordingly, whilst we endeavour to extract relevant data within the time limits of the Act, any data supplied is subject to these limitations.

Following our searches, I can confirm the following information was retrieved. Please note, as some crimes are currently being investigated, some information cannot be shared and as such, searches have returned blank records in response to your second and third questions, which is why the figures for gender and outcome do not match the number of reports in response to Q1.
